

Errata Sheet for Minor Corrections to Rosamond Community Services District (RCSD) 2020 Urban Water Management Plan (UWMP)

This errata sheet logs minor content errors that were identified after final adoption of the (*name of company/agency*) 2020 UWMP. DWR has determined that these corrections are minor and do not require the UWMP to be amended.

- ☒ These data errors have been corrected in the Department of Water Resources (DWR) UWMP database at <https://wuedata.water.ca.gov/secure/>
- ☒ This errata sheet has been filed with the UWMP in all locations where it is made publicly available, including the California State Library. Errata may be submitted to State Library via email to cslqps@library.ca.gov

Name and agency of the person filing errata sheet: Karina Yap, Kennedy Jenks Consultants

#	Description of Correction	Location	Rationale	Date Corrected
1	Described Antelope Valley groundwater basin, including a link to the 2015 Adjudication Judgement	Section 4.2.1 Basin Description	Original document did not include a description of the groundwater basin and a link to the basin adjudication document.	September 2023
2	Added a section addressing plan availability, including documentation of submittal to cities and counties, public availability, and submittal to the California State Library	Section 1.4.2 Plan Availability	Original document did not include statements that that UWMP was submitted to the CA state library and relevant cities/counties. Original document did not include a statement of public availability.	September 2023
3	Table 5-1 and Table 5-2 were updated in the WUEData submittal portal to report the correct 2020 target.	Online only – WUEData Portal	2020 target was originally calculated in 2010 as 142 GPCD based on population estimates from the DWR population tool. In 2015, updated census numbers were available and the 2020 target was recalculated using the 2010 census data (which was not available at the time of the 2010 report preparation). Based on the 2010 census, the 2020 target was recalculated as 159 GPCD. Original submittal to the WUEData portal incorrectly reported the outdated 2020 target as calculated in 2010 (142 GPCD) and has been corrected to the recalculated 2020 target (159 GPCD).	September 2023
